

Understanding Your Insurance Card

It's important to carry your Blue Advantage insurance card (ID card) with you at all times. As long as you are a member of Blue Advantage, you should **NOT** use your red, white and blue Medicare card to get covered medical services (with the exception of routine clinical research studies). Keep your Medicare card in a safe place in case you need it later. Your Blue Advantage ID card includes your name, group number and information about your plan. It also includes the phone number of your health plan on the back of the card. Call this number if you have questions about finding a provider or what your coverage includes. Make sure you bring your card with you when you visit a doctor.
